Michael Nogueira

Wallaceburg, Ontario | (226) 626-8849 | **portfolio.mnogueira.ca** | mvn_14@outlook.com

PERSONAL SUMMARY

- A driving passion and love for coding, learning, and leveraging modern software development technologies and best practices demonstrated by my personal "Spotify Tracker" Angular project.
- Excellent adaptability skills displayed through embracing new conventions and technologies during co-op placements.
- Responsible leader and positive team member as seen through exemplary leadership experience as a Leadership Coordinator at Camp Kenesserie.
- Motivated self learner and able to quickly pick up new software concepts and patterns and apply them

WORK EXPERIENCE

Software Developer (Co-op)   **January 2023 - April 2023**
STEP Software, London, Ontario (remote)
- Worked on a C++ GUI application leveraging the wxWidgets framework for a x509 Certificate management system.
- Implemented backend SQLite functionality following modern C++ best practices and conventions.

Application Developer (Co-op)   **May 2022 - August 2022**
Atlas Apex, London, Ontario (remote)
- Assisted in full stack development of Angular/.NET Core application leveraging Google's map API to provide real time map data to clients.
- Maintained and improved full stack legacy applications using .NET Core/Web Forms (C#/VB).

Cloud Platform Automation Developer (Co-op)   **September 2021 - December 2021**
Nova Chemicals, Corunna, Ontario
- Created and maintained Terraform modules for provisioning Azure Cloud resources.
- Automated testing and deployment of APIs to Azure API Management instances
- Developed a new module for an existing C# .NET MVC web application.
- Learned to work using an Agile workflow leveraging Azure DevOps.

EDUCATION

Computer Programmer Analyst   **September 2019 - April 2023**
Fanshawe College, London, Ontario
3.9 GPA
